## ———— EXPERIENCE ————

**HAUL'R** *01/23 - 06/23*
*Contracted Lead Web Developer*

- Collaborating with the team under an Agile-Scrum development cycle.
- Innovating to improve existing backend assets and components to ensure a stable work flow.
- Solely responsible for developing the brand identity and the front end of the MERN stack app.
- Consistently remain flexible and approach problems in new ways.

**TORO** 08/22 - 01/23
*Host*

- Managed reservations, answered phone calls, managed wait times and guest seating.
- Leveraging extensive restaurant background to manage the restaurant layout.
- Delivering a high quality experience to the clientele during peak wait times.
- Maintained a professional work environment for team members and guests.

**MARG'S BISTRO** 07/21 - 08/22
*Server / Foodrunner*

- Accommodating needs in large parties of 60+ people.
- Maintained and flipped over 10 tables at a time, assuring quality and satisfaction with every guest.
- Running food, memorizing orders, making drinks; heavy multitasking.

## EDUCATION ————

**University of Denver** – 24 week Coding Bootcamp
*JUNE 2020*
Certificate of Completion

## ACHIEVEMENTS ————

Solely responsible for eliminating wait times for orders and seating during holidays / events by efficiently delegating reservations in a server rotation, adapting to unexpected events accordingly. This is the determining factor for the servers, kitchen, and bartenders' quality of service for guests.
